President Trump's pick to replace Jeff Sessions at the Department of Justice on Tuesday testified before the Senate Judiciary Committee about the need to ramp up anti-gang enforcement efforts. Heather Mac Donald, a fellow at the Manhattan Institute, believes there are two main reasons why over 71 percent of children who are exposed to gang members will grow up to be gang members themselves

intracavitary
brachytherapy for
treatment of locally
advanced cervical cancer.
The study design was an
escalation dose-escalation
phase I/II study. Nine
patients with locally
advanced cervical cancer
were entered into four
treatment groups:
paclitaxel (Taxol, Bristol
Myers Squibb Company)
administered at a standard
dose of 100 mg/m² on
weeks 1 and 8 and HDR
intracavitary

brachytherapy administered on Mondays, Wednesdays, and Fridays. The HDR intracavitary brachytherapy doses were 24 Gy/4 fractions or 24 Gy/5 fractions plus a boost of 3 Gy to the primary tumor bed. Each group included one patient treated at a standard paclitaxel dose (100 mg/m²) and one patient treated at the maximum tolerated dose. The dose-limiting toxicity (DLT) was recorded as the maximum

toxicity that occurred during the treatment or up to 60 days after its completion. The paclitaxel dose was escalated from 80 to 140 mg/m² weekly in 20 mg/m² increments. The maximum tolerated dose was found to be 130 mg/m². The main dose-limiting toxicity was grade 2 (16%), grade 3 (63%), or grade 4 (21%) neutropenia. Four patients (44%) experienced hematologic grade 3 toxicity. No patients had

grade 3 or higher radiation
toxicity. The maximum
tolerated dose of paclitaxel
in combination with
concurrent weekly
paclitaxel, and HDR
brachytherapy
administered on Mondays,

have been covered with pictures of Ed Sheeran ever since the singer/songwriter released his third
studio album ÷ (Divide). Everyone just wants a piece of Ed. But even with a grin that usually graces his
face, Ed is shy, especially when it comes to social media. And that's why if he sees himself on your
Instagram feed, he might not even know it. The singer-songwriter has yet to post any pictures of
himself on his account. And while his publicist was kind enough to send us a few shots of Ed, the singer
is almost never caught out by nosy fans who make it a point to find him. Here are a few shots of the Ed
that nearly slipped by us. (We caught them all, by the way.) 1. The cover of ÷ (Divide). 2. The video for
