Febrile seizures are common in children. They are often associated with further seizures and occasionally have life-threatening consequences. Various agents have been used in the prevention of seizures and epilepsy, but their safety and effectiveness have not been fully elucidated. To review the evidence on the safety and effectiveness of minocycline in the prevention of seizures after febrile seizures in children. We searched the Cochrane Controlled Trials Register, MEDLINE, and EMBASE in December 1998. There was no language restriction. Reference lists of retrieved studies were searched for additional trials. Randomised or quasi-randomised controlled trials comparing min

When user places cursor over item1, item2, item3 etc. tool tip content changes, depending on the current item. All of this is working as expected. My problem is when I open the window, I don't want to change the ToolTip content manually. I want it to be auto generated. 648931e174
