PPD Echobox PC/Windows

PPD Echobox is a plugin which creates an echo for you for different sound paths. PPD Echobox runs in VST and AU format and supports most operating systems. PPD Echobox offers you an amazing new FX tool for composing. A powerful and extremely flexible VST/AU plugin, created for professional engineers, producers and enthusiasts alike. You will be amazed by the possibilities this plugin offers to implement professional results. PPD Echobox Features: PPD Echobox is a sound generator, which has a simple and intuitive GUI. In addition to the 2x2 Delay line (red and green), the plugin offers 2x3 Delay line (red, green and blue) for 3 channel processing. The plugin offers the possibility of continuous control over the dry sound. The plugin offers a range of options for setting the amount of wet sound (amount of echo). Furthermore the plugin offers a great range of options for setting the delay and mixing parameters. In addition to the Delay effect, there is the possibility to use the plugin as a multi-effects processor with for example the Multiband compressor, EQ and High-Pass Filter. Setting Parameters: Control over dry sound and wet sound. Reverb. Time settings. Amount of echo. Delay settings. Feed back settings. Control over delays and echo settings. Mix settings. Dual mode. Dry and wet settings. Echo modes. The plugin can run as a stand-alone application as well as a plug-in. The plugin offers the possibility to save presets. In addition to the two delay lines, the plugin offers a tool for controlling the amount of echo. PPD Echobox Requirements: PPD Echobox has been developed for the following operating systems: Windows 98/XP/Vista Macintosh (OS X 10.4) Macintosh (OS X 10.5) Macintosh (OS X 10.6) Macintosh (OS X 10.7) PPD Echobox has been tested with the following sample plugins: VST plugins (Stutter Free, IK Multimedia, BSS, jMPS, VST Compressor, Korg Professional and Sound Forge): VST and AU plugins (Mac OSX 10.5+) VST plugins (Mac OSX 10.5 and higher): VST plugins (
